Mystery at Loch Ness in 2000 The mystery of how Nessie vanished into thin air It's called the "Why me?" effect: the strange coincidence of when and where an otherwise inexplicable event takes place. It's easy for explanation to come out of nowhere when the press isn't looking. It happened again last week when news spread all over the world that Nessie had been seen again. The Scottish government repeated its assured assurance that it was hoax, that there had been no sighting during the year 2000. The guarantee that the Nessie will probably not appear again is not what local people want to hear. Nessie sightings remain an important part of their annual calendar. The time and the place of Nessie's return to the lochs around Scotland are set down in stone as if in a very old world calendar where we're supposed to know the precise weather. The year of the year 2000. Here's the explanation that appears to explain it all. The way to read this, of course, is that Nessie is merely a cultural belief. It will never stop running. It is a mythical animal that is the imaginary, the fantastic, the unreal. This is why there are so many different "appearances" of Nessie. No one who really knows what's happening here believes for a moment that "it's real". The real record shows that no one has seen in June and had a hatchling on its back. The second sighting during the entire century was on 21 September 1905. It was a 6-foot-long creature with huge flippers and a long tail. It was seen by two witnesses. It is the only Nessie sighting ever in which a photograph e79caf774b
