You can also download Norton Utilities from our website. 8 MB of disk space for.Q: Python - Listening for two mouse clicks I have a program that I'm running in the background, and I need to detect if there is a mouse click. However, I only need to detect one single mouse click event. The reason I need this is because I have a clock that counts down, and I need it to only count down once. The reason I need this, is I can't tell if there is a second click until it's already finished counting down. So, I need to check for a double click event. I am currently doing this: while not m.isGrabbed(): print "listening" m.waitForSingleClick(
