by BRIAN NADIG Concerns have been raised about the condition of the basement windows on the exterior of 2644 W. Armitage Ave., where a shooting took place recently. After the shooting, the windows were covered with plywood and taped up, but they do not appear to have been thoroughly cleaned, according to a neighbor. "The basement windows were covered with plywood and taped up. I asked the police why but they said they didn't have to tell me," the neighbor said. "Now they are totally covered with plywood." The incident involving the three men occurred about 5:45 p.m. Thursday on a stairwell that connects the basement and a first-floor apartment. According to police reports, three men, one of whom was on a cell phone, confronted a suspect and an altercation ensued. The suspect, in an attempt to get away from the men, opened fire from a "barrel" handgun, striking one of the men, whose condition was not described. The suspect was reportedly captured on the cell phone. According to a Chicago Police

News Affairs officer, two people in the building have since provided information to detectives regarding the incident. The neighbor said that he did not hear anything on the stairs, but that a resident who lives next door said that he and his wife were in their apartment when they heard shots and then a woman yelling for help. The neighbor said that the home is owned by a friend of his who rents the first floor to a family of renters. Police say that charges are pending against the individual who is believed to be the suspect in the shooting. The incident has been the subject of an internal investigation by Chicago Police, and a spokesman was unable to release additional details on the investigation, including whether the matter was being referred to the FBI.Connexin43 and heart failure in aging: a confocal microscopy study.
