Opal-Convert Excel To VCard To Excel Crack + For Windows

Opal-Convert Excel to vCard to Excel Product Key is a straightforward piece of software that enables users to convert vCards or XLS files to CSV, VCF, or XLS file format. The user interface is intuitive and offers quick access to several configuration settings that should please beginners and professionals alike. Files can be uploaded into the working environment using the built-in browse button, so you cannot rely on the "drag and drop" support. A top feature bundled into this tool is a smart previewing system that offers users the possibility to check the contents of vCards and view the output results. Opal-Convert Excel to vCard to Excel allows you to convert files to XLS, XLSX, or CSV, as well as to formats compatible with mobile devices and different applications, such as BlackBerry, Gmail, Nokia, Thunderbird, Windows Contacts, and others. Another important feature worth mentioning is represented by the possibility to edit the vCard information directly from the primary panel, namely details about the company, telephone number, address, website, email address, and others. What's more, you can make the program display data in a single long row or in multiple columns, and automatically remove the columns which are blank. When it comes to advanced configuration settings, you are allowed to pick the encoding method, filter out HTML, XML, and binary data, merge columns with the same headers, join the "Name," "Address," and "Company" fields, as well as delete or keep columns and rows by entering their corresponding numbers. Last but not least, the application offers support for batch processing, which means you can add the content of an entire folder and process the items at the same time. All things considered, Opal-Convert Excel to vCard to Excel bundles a decent pack of features and provides very good output results. File Size: 1.59MB ... Vcard to RIM6330 Adobe RIM6330 Contact Converter is a powerful data conversion utility which helps you convert Adobe RIM6330 contact information to RIM6330 vCard or vCard to RIM6330. It supports conversion from RIM6330 to Google vCard, MS Outlook vCard, vCard to RIM6330, RIM6330 to MS Office vCard, RIM6330 to MS Outlook vCard, vCard to RIM6330

Opal-Convert Excel To VCard To Excel
