Rethinking Race: From  
Science to Policy collects

---

chapters that represent a new view of race in the US, while addressing why and how science may matter in policies in the 21st Century. Rethinking Race advocates for applying standards of evidence, the relevance of science, the use of data, and the involvement of the public in policies that impact race. In providing a foundation for

---

these claims the authors demonstrate that: 1. Race is rooted in history and is very closely tied to the current socio-political structure and power relations in the United States. 2. Misuse of science, which has become pervasive in the United States, helps explain the racial disparities that have been observed. 3. Scientists

---

and laypeople alike are attracted to certain topics in order to further scientific agendas, such as the pursuit of prestige and funding. 4. Because of historical processes and contemporary political and economic factors, the current demographic patterns of race and race-related concepts are largely non-scientific, but are

---

products of modern political structures. 5. Scientific answers to questions about race, such as those that assume non-scientific definitions of race, focus on the past and are likely to give wrong answers to contemporary issues. A major goal of Rethinking Race is to develop an approach to policy that is based on current social

---

science theory, is rooted in contemporary social structures, and accounts for the embeddedness of race in the political economy. The Birth of a Model: George William Fuller and the Life and Works of the Race Concept William Murrell Dow 6d1f23a050
