the new vehicles in burnout paradise are unlike any of the autos in the history of the arrangement. they are terrible, excellent, fast, slow, and they all have their own unique properties. from the tiny gas-sipping scooter to the monstrous track-dominating monster truck, every vehicle in burnout paradise has its own sense of speed, responsiveness, and power. gain the new vehicles and protect them against the new dangers of paradise city, all the while enlisting a group of partners who can help you uncover the truth about the new dangers. along the way, you'll discover fun new challenges, awesome new achievements and trophies, and new multiplayer modes. paradise city's streets, underground passages, and bridges are constantly changing, so players must always watch their six to avoid hitting obstacles and danger. the length of each race also changes: one race can last as little as 30 seconds, or as long as 10 minutes. if you take too long to get back to your auto, you lose precious time. your strategy will determine if you're a fast or slow driver. some sections of the track are protected by gates, while other sections have just one gate to block your path. the gates can be opened by your rivals, so it's up to you whether to stick to your plan or try to take over the race. there are two kinds of events in burnout paradise: one-time events and real-time events. one-time events are short, special events that take place along a few kilometers of the race course and are only available at specific times. each one-time event is played for a set amount of time. real-time events, however, are played every time you pass a certain location, and they last a specific amount of time. the real-time events are faster and more intense than the one-time events. some of the real-time events require specific vehicles. to unlock these events, you must play a certain number of minutes in one-time events. 5ec8ef588b
