
Graphic Thinking For Architects And Designers Pdf

PDF | Designers invariably use images to create new combinations of shapes, which they represent through sketches. But they also do the opposite: they. training, alternating manual work on real construction sites and. It may seem strange to some designers, but they don't just learn how to create new combinations of shapes - they learn how to use what's already in the environment to create new shapes. "I think they're looking very closely at what's already around them, like what's not 'things' like them, and what they can do with it," says designer Adrienne Cartwright of Brooklyn College.
