
Hama Racing Wheel Thunder V18 Driver 17

the wheel has an absolute maddening button placement, so if you are using a mouse, you will have to have a little bit of patience in finding the right buttons and do a little experimentation to get the best results. the build quality is pretty solid. the materials used in the build is similar to what you find in a good quality aftermarket steering wheel. the buttons are very easy to push and have a very good feel to them. i like the looks of the wheel as well. it is very well designed and it feels good in your hands. i am really impressed with the build quality and materials used in the hama racing wheel thunder v18. i like the looks of the wheel as well. the build quality of the controls is very good. it is stiff and has a very good feel to it. i think it would be a great option for anyone who is looking for a good quality aftermarket wheel. the thunder v18 is the second version of the hama racing wheel for drivers over the age of 12. the v18 incorporates a new style of control that is designed for younger drivers. the wheel is now a new light blue colour and the base is now made from aluminium rather than plastic. the adjustment screw for the steering axis is now located to the right of the wheel. instead of a separate control knob, there is now a new control dial which can be used to adjust the steering axis from left to right. although the v18 is aimed at younger drivers, it can also be used by older drivers as it incorporates the "backwards" mode. this mode allows the driver to operate the steering axis in the opposite direction. the v18 has a new steering axis control dial located on the right of the wheel. the steering axis can be adjusted by moving the dial in the direction the driver wishes to steer. the steering axis can also be adjusted left and right. a separate control knob is no longer included. the v18 also has a new style of control. instead of a separate control knob, there is now a new control dial which can be used to adjust the steering axis. the control dial is located on the right of the wheel and can be used to adjust the steering axis up or down. the steering axis can be adjusted all the way to the left or right. a new feature is the "backwards" mode. when the steering axis is adjusted to the left, the steering axis will go all the way back to the centre of the wheel. this makes it easier for a driver to turn the steering wheel backwards for a drift move. the steering axis can be adjusted by turning the steering wheel left or right. the control dial is located on the right side of the wheel. the steering axis can be adjusted up or down. the hama racing wheel v18 is available in three versions. the v18 comes in two versions. one is for drivers over the age of 12 and the other is for drivers under the age of 12. there is also a v18 with a 12 month warranty. the hama racing wheel v18 with a 12 month warranty is available from www.hama.co.uk.
